### DETAILED ACTION

1. The amendment filed June 1, 2007 has been received and entered. The text of those sections of Title 35, U.S. Code, not included in this action can be found in a prior Office action.
2. Claims 1-9 are pending.

#### *Claim Rejections - 35 USC § 112*

Claims 1-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

3. As discussed in the previous Office action, claim 1 is indefinite because it is not clear what applicant considers "external" and "internal" immune responses. In addition, it is unclear how the stability of the immune responses are measured and what would be considered a stabilized immune response. Applicant argues that the specification adequately defines these terms; however, these terms are still considered inadequately defined. These terms are considered vague and indefinite because the metes and bounds of the terms are unclear. Applicant has not definitely defined what immune responses are considered to be "external" versus "internal" immune responses. In addition, applicant has not defined how to definitely determine when the immune system is "stabilized."
4. A broad range or limitation together with a narrow range or limitation that falls within the broad range or limitation (in the same claim) is considered indefinite, since the resulting claim does not clearly set forth the metes and bounds of the patent protection desired. See MPEP § 2173.05(c). Note the explanation given by the Board of Patent Appeals and Interferences in *Ex parte Wu*, 10 USPQ2d 2031, 2033 (Bd. Pat. App. & Inter. 1989), as to where broad language is

Art Unit: 1655

followed by "such as" and then narrow language. The Board stated that this can render a claim indefinite by raising a question or doubt as to whether the feature introduced by such language is (a) merely exemplary of the remainder of the claim, and therefore not required, or (b) a required feature of the claims. Note also, for example, the decisions of *Ex parte Steigewald*, 131 USPQ 74 (Bd. App. 1961); *Ex parte Hall*, 83 USPQ 38 (Bd. App. 1948); and *Ex parte Hasche*, 86 USPQ 481 (Bd. App. 1949). In the present instance, claims 5, 8 and 9 recite the broad recitation "including but not limited to", and the claim also recites "hoof, heel, skin, coat" and "parasitic and bacterial attacks" which is the narrower statement of the range/limitation.

### ***Claim Rejections - 35 USC § 103***

5. Claims 1-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over US Pat. No. 5,973,224, US Pat. No. 6,190,685, and US Pat. No. 5,948,443 for the reasons set forth in the previous Office action.

All of applicant's arguments regarding this ground of rejection have been fully considered but are not persuasive. Applicant argues that the prior art does not teach the claimed invention because the prior art is directed towards treating humans while the claimed invention is directed towards the treatment of animals. However, a recitation of the intended use of the claimed invention must result in a structural difference between the claimed invention and the prior art in order to patentably distinguish the claimed invention from the prior art. If the prior art structure is capable of performing the intended use, then it meets the claim. The prior art is considered to teach a composition that is structurally the same as applicant's claimed

Art Unit: 1655

composition. Thus, the prior art composition properly renders obvious applicant's claimed composition.

6. No claims are allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
